

## **vTv Therapeutics Announces Issuance of U.S. Patent Covering Methods of Treatment Using Azeliragon**

08/03/17

HIGH POINT, N.C.--(BUSINESS WIRE)--Aug. 3, 2017-- vTv Therapeutics Inc. (Nasdaq: VTVT) announced today that the U.S. Patent and Trademark Office has issued a patent with claims protecting methods of treatment using azeliragon, the Company's oral antagonist of the Receptor for Advanced Glycation Endproducts (RAGE) for treatment of mild Alzheimer's disease. The patent number is 9,717,710 ('710 Patent).

The '710 Patent, expiring in October 2034, includes claims covering methods of treating patients with mild Alzheimer's disease by administering about 5 mg per day of azeliragon. vTv expects that the '710 Patent will be Orange Book listable. The '710 Patent adds to the portfolio of US patents covering azeliragon, including a composition of matter patent that is expected to expire in 2029. vTv continues to prosecute additional patent applications to further enhance its existing patent portfolio covering azeliragon.

"vTv is currently the only company developing a treatment for Alzheimer's disease by targeting the RAGE receptor, which has demonstrated potential in addressing three key pathologies in Alzheimer's disease: amyloid- $\beta$ , tau and chronic inflammation," said Steve Holcombe, president and CEO of vTv Therapeutics. "This new patent is an important milestone as vTv prepares for the results of our upcoming Phase 3 data readout."

Azeliragon is currently being studied in a randomized, double-blind, placebo-controlled Phase 3 trial investigating the efficacy of azeliragon as a potential treatment to slow the decline in cognition and functional activities for patients with mild Alzheimer's disease. Data from Part A of the trial is expected to read out in late March 2018, data from Part B data is expected to read out in late December 2018.

### **About vTv Therapeutics Inc.**

vTv Therapeutics Inc. is a clinical-stage biopharmaceutical company engaged in the discovery and development of orally administered small molecule drug candidates to fill significant unmet medical needs. vTv has a pipeline of clinical drug candidates led by programs for the treatment of Alzheimer's disease and diabetes as well as treatment of inflammatory disorders and the prevention of muscle weakness.

The Company's lead drug candidates were discovered with its high-throughput drug discovery platform, TTP Translational Technology®, which translates the functional modulation of human proteins into safe and effective medicines. ### **Forward-Looking Statements**

This release contains forward-looking statements, which involve risks and uncertainties. These forward-looking statements can be identified by the use of forward-looking terminology, including the terms "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "target," "will," "would" and, in each case, their negative or other various or comparable terminology. All statements other than statements of historical facts contained in this release, including statements regarding the timing of our clinical trials, our strategy, future operations, future financial position, future revenue, projected costs, prospects, plans, objectives of management and expected market growth are forward-looking statements. These statements involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Important factors that could cause our results to vary from expectations include those described under the heading "Risk Factors" in our Annual Report on Form 10-K and our other filings with the SEC. These forward-looking statements reflect our views with respect to future events as of the date of this release and are based on assumptions and subject to risks and uncertainties. Given these uncertainties, you should not place undue reliance on these forward-looking statements. These forward-looking statements represent our estimates and assumptions only as of the date of this release and, except as required by law, we undertake no obligation to update or review publicly any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this release. We anticipate that subsequent events and developments will cause our views to change. Our forward-looking statements do not reflect the potential impact of any future acquisitions, merger, dispositions, joint ventures or investments we may undertake. We qualify all of our forward-looking statements by these cautionary statements.
